Effective: March 29, 1999

Distribution: District Directors
AB Distribution List

The Attorney General's office has informed the State Board that some WTCS districts have directly requested legal opinions from that office. The State Board has been asked to advise all districts that the Attorney General only provides opinions to state agencies, district attorneys, and corporation counsel for counties in connection with matters within the scope of their respective official duties. Opinions will not be issued to WTCS districts.

Therefore, requests for Attorney General's opinions should be forwarded to this office. The request should contain the facts prompting the request, the questions to be answered, and a tentative conclusion and the reasons for the conclusion. A determination will then be made as to whether a formal opinion should be sought by the State Board based upon guidelines issued by the Attorney General.
